

## Granular Material Compaction

### VTP 5/5 25 and VTP 5/5 40

**Dimensions:** 20" X 20" **Load:** 4,400 lbs and 110 lbs

**Features:** Pneumatic linear vibration drives  
Hand or foot control  
Total and independent adjustment of both frequency and amplitude  
Fast compaction, instant on/instant off

### VTP 5/5 25 and VTP 5/5 40

**Application:** Compacting granular materials in fiber shipping containers.

**Dimensions:** 20" X 20" **Load:** 55 lbs

**Features:** All Controls are mounted on the base frame. Operates with foot valve. Excellent vibration insulation provided by coil springs. Height 15"
