

E-Z™ Vibratory Feeders

Powered by efficient pneumatic drives

MARTIN® E-Z™ Vibratory Feeders meet the needs of feeding applications up to 8 tph. The simple, all stainless steel fabrication is E-Z to clean, perfect for food, chemical and pharmaceutical applications. The drive and suspension components are designed to operate in hazardous or wet environments.

Units are available in various configurations:

1. Standard, “off-the-shelf” units.
2. Custom sizes.
3. Drive and suspension only.
4. Flat, vee or custom trays available.

FEATURES

Clean, Sanitary Design

Standard, all stainless steel fabrication, powered by a corrosion proof, coated drive. Ideal for food, chemical & pharmaceutical applications.

Explosion-Proof & Waterproof

No sparks or heat are generated by the pneumatic drive system. Totally sealed allowing vibratory feeders a safe wash-down.

Quiet & Energy-Efficient

Drive system operates at less than 65 dBA.
Uses 0.18 – 3.14 cfm.

Exact Adjustment

Speed and stroke are independently adjusted, providing exact control.

3-Year Guarantee

Drive unit is covered by a full 3-year guarantee.

On-Site Feeder Testing

Call us to test the E-Z™ Feeder System at your location.
