

## MARTIN® WEDGIE™ Portable Vibrator Mounting Systems

The MARTIN® WEDGIE™ Portable Vibrator Mounting System offers a quiet, positive solution for applications requiring removable vibrators. The inner surface of the patented vibration shoe is coated with a space-age plastic that transfers vibration but absorbs noise.

### Choose between 3 vibrator types:

1. Lube-free, MARTIN® NTS™ Non-impacting Linear Vibrators.
2. MARTIN® PKL™ Single Impactors for a hammer-like blow.
3. 115 Volt Micro Electric Vibrators.

## FEATURES

### Quiet

Noise levels are 60 to 65 dBA, well below regulatory limits. Special mounting shoe reduces noise levels, yet transfers vibration efficiently.

### Easy On, Easy Off

The vibrator assembly slides over the fixed V-section. The molded shoe conforms to the V-section. Just slide it on, vibrate, and slide it off.

### Sanitary Design

Special coating systems on the vibrators shed material build up and won't flake off. The MARTIN® WEDGIE™ Mount is fabricated from 304 stainless steel.

### Additional Specifications

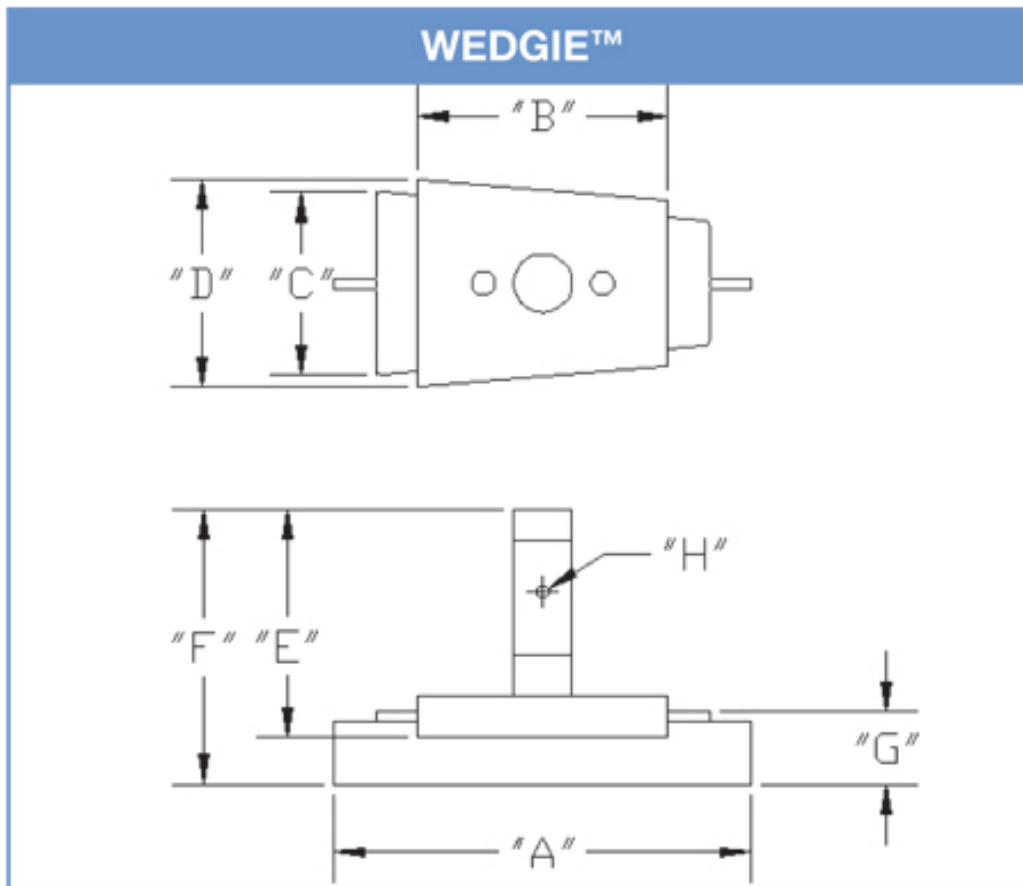

- Air pressure range: 30-90 psi
- Operating temperature: 32°-250° F.
- Air Preparation: 5-micron filter, pressure regulator & lubricator for steel models. 3-way control valve required. (Included)
- Force (maximum): 93 force-lbs.
- Warranty: 3-years when operated within recommendations.
- US Patent #5,833,205
